---

I'm a React/React Native Engineer with 3 years of experience in Web and Mobile development. I have helped companies to take ideas into beautiful and functional products that have reached millions of users.

---

## Experience

### Freelance - Frontend Engineer

OCTOBER 2021 - PRESENT

- ❖ Collaborated with the DeepIQ frontend team to build features and architecture improvements to their data analytics & visualization tool.
- ❖ Build a React Native video streaming application for a joint venture of Hoyt & Mantis.
- ❖ Open-source contributor at Status. A web3-based messaging app, crypto wallet, and browser.

*JavaScript, TypeScript, ClojureScript, React, React Native*

### BigBinary - Software Engineer | Engineering Manager

DECEMBER 2020 - SEPTEMBER 2021

- ❖ Build a React Native Template. It helped save project setup time, bringing it anywhere from 4 to 8 hours to just one command.
- ❖ Authored React Native training guide & best practice articles that helped save hours of code review time.
- ❖ Contributed to the design, architecture, development, and publishing of several React/React Native projects.
- ❖ Helped hire 15 React Native engineers expanding the mobile engineering team strength from 3 to 18 engineers.

*JavaScript, TypeScript, React, React Native, Next.js, Figma, Fastlane*

### SurveySparrow - Product Developer

NOVEMBER 2019 - NOVEMBER 2020, Kochi - India

- ❖ Build a survey preview feature & redesigned the entire mobile app UI resulting in around a 20% increase in average app rating and over 90% reduction in inconsistency issues reported.
- ❖ Developed a component library utilizing Styled Components that helped build new features 20-30% faster.
- ❖ Build a CI/CD pipeline for the React Native app that allowed to eliminate developer dependency and saved several hours of troubleshooting during release.

*JavaScript, TypeScript, React, React Native, Node.js, PostgreSQL, Figma, Fastlane*

## Education

### Mahatma Gandhi University - Master of Computer Application

JUNE 2014 - MAY 2019, Kochi - India

- ❖ Coordinated a National Level IT Fest participated by over 2000 college students from 3 states of India.
